Edgewater, NJ 07020

Dear Sir or Madame:

On behalf of the Greater Washington chapter of the Muscular Dystrophy Association (MDA), I would like to thank you for your donation of \$250. Your contribution has helped to make the Nineteenth Annual Peter G. Callas Memorial Golf Day for MDA a complete success. This year the tournament is projected to raise over \$30,000! These funds will be donated in memory of my father at the 2010 Stars Across America Labor Day Telethon.

The MDA does not receive any government funding, so events like the Golf Day are important to the Association. The funds raised will permit the organization to continue its quest to find cures for over 43 neuromuscular diseases. In addition to research, MDA provides a wide range of patient services to many people living with these diseases. Simply put, the Muscular Dystrophy Association provides hope for so many and your interest and support keeps that hope alive.

Once again, many thanks for your contribution to the Muscular Dystrophy Association and for helping keep my late father's spirit and good will alive. I greatly appreciate your support and look forward to working with you on next year's tournament!

Sincerely,

Alex Callas
Chairman
Peter G. Callas Memorial Golf Day for MDA
